

# BotaniQual

## 100% Swiss

From the plant to the finished product, R&D, design and production included

## “Rethinking extraction”

A new extraction solution designed and developed by a team of scientists expert in total recycling

### HIGH QUALITY PROCESS

Thanks to our extraction process based on undenatured ethanol, our products redefine today's quality standards.

### FULL SPECTRUM

Our CBD oil preserves all the active ingredients contained in the plant. Their combination enables the entourage effect.

### COMPLETE TRACEABILITY

The lot number on each bottle allows to trace all production steps.

### CLOSED LOOP

100% of our production waste is recovered by composting, in a circular economy perspective.
